Headteacher and SLT appointment

The Senior Leadership Team in the schools owned by the Spanish State and located abroad will be formed by the following members: Headteacher, Head of Studies and Bursar. In addition, there may be a Deputy Headteacher and as many others as the Spanish Ministry of Education decides.

The Senior Leadership Team will be unique to the school as a whole and there will be at least one Primary Head of Studies and one Secondary Head of Studies.

Headteacher appointment

The Headteacher is the representative of the Education Administration and is assigned the general competences conferred upon the Headteachers of state schools run by the Ministry of Education in Spain. The Headteacher will be freely appointed by the Ministry of Education among the civil servant teachers in the school.

The appointment of the Headteacher shall be carried out with effect from 1st of July of the year in which his/her selection takes place, with the exception of the United Kingdom, where the appointment shall take effect from 1st August. In May, the Counsellor of Education will notify the school, if appropriate, of the need to start the process for the provision of the position of a Headteacher, opening a period of 15 days for the submission of applications.

The interested teachers will submit their candidacy in writing, they will include their professional experience and, where appropriate, that of the members of the proposed senior leadership team. In addition, they will include their programme, which will include short, medium and long-term objectives for the school, a brief analysis of the

organization and the performance they propose for the school and the improvement plans. After reviewing the nominations submitted and after hearing the teacher staff body and the parents, the Counsellor of Education will submit to the Spanish Ministry of Education the proposal for the appointment of the Headteacher and the other members of the senior leadership team proposed by the headteacher before June 15th. The Spanish Ministry of Education will ask for a report to the Spanish Education Inspectorate before deciding the final appointment.

In the event of no candidacy, the Counsellor of Education, before May 31st will make a proposal for the appointment of a Headteacher to the Spanish Ministry of Education, choosing among any of the civil servant teachers in the school. The Spanish Ministry of Education will ask for a report to the Spanish Education Inspectorate and, after hearing the Spanish Ministry of Foreign Affairs, a headteacher will be appointed. The headteacher will propose the appointment of the other members of the senior leadership team.

The requirements to submit the candidacy for the senior leadership team of the school are:

- To have been at least five years in the body as a civil servant teacher.
- To have taught directly in the classroom as a civil servant teacher for five years in a state school in Spain.
- To be teaching in the school where the civil servant teacher is opting to form part of the senior leadership team.

In cases where there are no nominations for senior leadership team, it will only be necessary to comply with the same requirements as when there is no headteacher nomination.

The appointment as a Headteacher may be extended for his/her entire period abroad (maximum 6 years) and must cease, in any case, at the end of that period.

The Headteacher may also cease in case of resignation and after submitting a report on the causes. This resignation must be accepted by the Counsellor of Education. The Headteacher may also be freely dismissed by the Ministry of Education. The

Counsellor of Education can cease the Headteacher, considering that there are reasons for this and after hearing the teacher staff body and after hearing the Headteacher. This dismissal proposal will be forward to the Ministry of Education.

In case there is no Counsellor appointed, the competences of the Headteacher and the other members of the senior leadership team appointment shall be performed by the Ministry of Education directly.

Senior leadership team

All the members will work in a coordinated manner in the performance of their duties and will effectively and efficiently facilitate the objectives of the Spanish Education action abroad.

The school Headteacher will propose to Ministry of Education through the Spanish Embassy Education Office, the appointment of the other members of the senior leadership team among the civil servant teachers in the school. If for any reason this is not possible, the Ministry will freely appoint them among civil servant teachers of the school.

All the members of the senior leadership team will cease their duties when their period abroad ends (maximum 6 years), at the end of the Headteacher's term of office, or when his/her dismissal occurs.

Likewise, any of the members of the senior leadership team appointed by the Headteacher may be dismissed, at his/her proposal, by an explanation letter addressed to the Counsellor of Education who, after hearing those affected, will send it to the Ministry of Education.

The senior leadership team positions in the schools abroad will have the career recognition issued by Spanish legislation for state schools in Spain.

When the appointment of more than one Head of Studies has been authorised in a school, one of them shall have the responsibility and competence for coordinating the others.

The Head of Studies will be run by teachers of the teacher teams corresponding to the educational level in which they have their teaching competence. Each Head of Studies will adapt his/her functions to the corresponding levels and stages: Early years and

Primary (Primary Head of Studies) and Secondary and Baccalaureate (Secondary Head of Studies).

In the schools where, due to their complexity and need for cultural projection activities extended throughout the academic year and these are quite significant, both for the educational community and for the projection of the Spanish Language and Culture, the Ministry of Education may authorize the appointment of a Deputy Headteacher, upon the duly justified proposal of the Counsellor of Education.

The Deputy Headteacher, on behalf of the Headteacher, under his/her authority and within his/her competence, shall have the functions that the Headteacher entrusted to him/her. Likewise, he/she will be responsible for organising and promoting all the activities for the projection of the Spanish Language and Culture, with the collaboration of all the members of the teacher staff, and will also have the functions that are generally attributed to the Head of the Department of Complementary and Extracurricular Activities in the state schools of the Ministry of Education in Spain.

In the case of absence or illness, the Headteacher will be replaced by the Deputy Headteacher or, if not, by the Head of Studies. In case of having to choose between the Primary Head of Studies and the Secondary Head of Studies, the substitution shall correspond to the Head of Studies with more years of service in the school or that with more years of service as a teacher civil servant.

Appraisal and capability procedures. Staff discipline, conduct and grievance

Appraisal in this school will be a supportive and developmental process designed to ensure that all teachers have or fully develop the skills and access to support they need to carry out their role effectively. It will help to ensure that teachers are able to continue to improve their professional practice and to develop as teachers. The capability process applies only to teachers and headteachers where there is serious underperformance which the appraisal process has been unable to address.

Teacher and SLT appraisals are carried out against the standards and performances stating in the Spanish Education Law. An annual appraisal is carried out by the Spanish Inspectorate who visits the school during the autumn and the spring terms. The school

as a whole is inspected annually and specific teacher appraisals are carried out biannually by the Spanish Inspectorate.

Teacher appraisal

Teachers must write a report on their performance and reached goals against the objectives and standards of the Spanish Education Law to be presented and discussed when the interview with the inspector takes place. Class observations and behaviour are also assessed by the Spanish Inspectorate who may give recommendations to improve performances and praxis. Concerning the SLT, not only teaching practices and standards are revised but management of staff, premises and budget, staff and students' welfare and security and students' attainments. The Spanish Inspectorate writes a final report on each of the teachers and members of the SLT and it is presented and discussed confidentially with the Spanish Embassy Education Counsellor.

In case a teacher or a member of the SLT has not been carrying out their responsibilities, some recommendations are given by the Inspectorate to amend their performance in a convenient period of time which the Inspectorate and the Counsellor decide. After that period of time a new assessment is carried out and a new report written down.

Teacher capability

In case that teacher or a member of the SLT has not reached the required standards yet, an "extraordinary assessment" is carried out by the Spanish Inspectorate (interviews, class observations, inquiries to SLT, students and parents), that is the capability process is carried out. If there is still serious underperformance, a third report is written and that teacher or a member of the SLT will lose their post in the IE Vicente Cañada Blanch. This low assessment will be filed in the teacher's or a member of the SLT's record in the SCR at the Spanish Embassy Education Office.

Before the final decision and during the whole process the teacher or SLT member can consult, discuss, ask and give relevant information to the Inspectorate in order to justify

their performance and the reached or non-reached standards. If the teacher or SLT member, after the final report, does not agree with the final decision taken by the Inspectorate and the Education Office, s/he can take legal actions against the Inspectorate and the Education Administration.

Confidentiality

The appraisal and capability processes will be treated with confidentiality. However, the desire for confidentiality does not override the need for the headteacher, the Inspectorate or the Spanish Education Office to quality-assure the operation and effectiveness of the appraisal system.

Consistency of Treatment and Fairness

The Inspectorate and the Education Office are committed to ensuring consistency of treatment and fairness. It will abide by all relevant equality legislation, including the duty to make reasonable adjustments for disabled teachers. All of them are aware of the guidance on the Equality Act issued by the Spanish Ministry of Education and the Department for Education.

Grievances

Where a member of staff raises a grievance during the capability procedure the capability procedure may be temporarily suspended in order to deal with the grievance. Where the grievance and capability cases are related it may be appropriate to deal with both issues concurrently.

This policy must be reviewed annually.

The Spanish Embassy Education Office.
